

PYTHON DEVELOPER

GOWSHICK H

Passionate software engineer seeking to contribute to a dynamic team by leveraging modern programming languages, frameworks, and design patterns to develop robust, scalable, and efficient software solutions. As a fresher, I bring a solid foundation in HTML, CSS, and JavaScript, along with experience in the Python (Django), ReactJS, databases, Jest, and AWS. Committed to continuous learning and growth in the ever-evolving field of software engineering, I strive to stay updated with the latest industry trends and best practices.

SKILLS

- Python
- Django
- HTML5 and CSS
- Bootstrap
- Tailwind CSS
- JavaScript (ES6+)
- ReactJS and Redux
- Responsive Design
- MongoDB
- MySQL
- Data Structures and Algorithms
- AWS Cloud
- Git, GitHub

ACHIEVEMENTS

- 1st Place: Hackathon by Codevita Live
- Runner-up: Ideathon by Sri Eshwar College
- Participated in contests: HackerEarth
- Participated in web hackathon: KumaraGuru College

EDUCATION

2020 - 2024 | CGPA: 8.52

SRI ESHWAR COLLEGE OF ENGINEERING, COIMBATORE

Bachelor's in Computer Science and Business Systems

EXPERIENCE

FULL STACK DEVELOPER INTERNSHIP

TNXT India Private Limited, Coimbatore.

Dec 15, 2023 - April 15, 2024

- I joined as a full-stack web developer intern and worked on developing e-commerce and logistics solutions.
- I got to learn a lot of things when I got stuck with the problems.
- I had a good experience to developing responsive, good user experience and well functionalized websites.
- I explored, gained valuable insights, and refined my proficiency in development.

CERTIFICATIONS

- **JavaScript Fundamentals** - Guvi
- **Html, Css Beginner to Master** - Udemy
- **MySQL Beginner to Master** - Hacker Rank
- **Modern React with Redux** - Udemy

PROJECTS

PROJECT 1 | JOURNEY BEGINS

DURATION: 3 Month

Technologies: Html, Css, JavaScript, jQuery, Bootstrap, Django

- It is a bus ticket booking website which have the functionalities of search the list of bus and seats available for booking.
- Subscription facilities with customer benefits.
- After a payment the customer can download a ticket invoice.
- This website developed with the appealing user interface and user experience design for a customer.

PROJECT 2 | CODEVITA INTERN APP

DURATION: 1 Month

Technologies: Html, Css, Bootstrap, JavaScript, Django, Firebase, AWS

- The students want to apply for internships in their fields of interest. The students might have struck out at the large steps of the application process.
- As a result, we created a set of simple, necessary steps that allow students to effectively apply their internships.
- We are using HTML, CSS, Bootstrap, and JS for the front end. Django for the backend. We have hosting this site using AWS.

PROJECT 3 | NAYAH FOODS

DURATION: 3 Month

Technologies: Bootstrap, Tailwind CSS, ReactJS, Node.js, Express.js, MongoDB, Jest, AWS

- This is the e-commerce website that has minimal products for customers, like grains and powders, with a good, appealing user interface and user experience design that is fully responsive for small screens as well and developed by ReactJS with Bootstrap.
- Implemented secure authentication and mail verification for user signin and order confirmation.
- Secured backend server, APIs developed using express.js, Node.js with MongoDB.

PROJECT 4 | ANYWHERE EYE

DURATION: 2 Month

Technologies: Bootstrap, MUI, ReactJs, Node.js, Express.js, MongoDB

- This is a product stock monitoring web app maintained by the admin and supervisor with different purposes.
- The admin can assign a certain category of products for a supervisor to manage and monitor.
- This web app was developed with a focus on security measures to ensure secure user sessions.
